Figures are sorted by total in 2015. Figures are rounded to nearest multiple of 5. Figures include applications from EU citizens. "0" means data not yet available. The last column in the uppermost table is based on yearly data from Eurostat. Because of the aforementioned rounding to multiples of 5 there are small differences with the monthly data.

In the first 10 months of 2015, Germany received the highest number of first asylum applications in the EU, followed by Hungary. Figures for November are not yet available for all EU countries. Syria, Afghanistan and Iraq are the most important countries of origin in the influx of first asylum applications in the EU.

Special Theme: First Asylum Applications in Europe (1st half of 2015) related to country Area, Population and GDP

Source: EUROSTAT, situation by January 7th

Introduction

Biannually the influx of asylum seekers in Europe is related to three indicators of country size: Area, Population and GDP. This way, it's easier to compare the asylum influx between small, medium, and large countries.

Table 1: Number of first asylum applications compared to country area, population and GDP in the 1st half of 2015

	Rank	Country of asylum	Number of Applications	% share in EU	Country area (sq km)	% share in EU	Inhabitants (million)	% share in EU	GDP	% share in EU

Table 1 shows the number of first asylum applications, country area size, population in Europe. The table is arranged by the number of asylum applications in decreasing order. Germany registered the highest number of applications, followed by Hungary and Italy. The Netherlands ranked 8th within the EU.

It is clear from table 1 that the ranking of countries when compared by the three indicators of country size is not the same as the ranking ordered by the number of asylum applications. There are substantial differences for most European countries between their share of the EU-28 total of asylum applications, country area, inhabitants and GDP. In the next subsection, the different indicators of country size will be related to the number of asylum applications in more detail.

First Asylum Applications in Europe (1st half of 2015) related to area size

Table 2 relates the number of first asylum applications to the area size of the European countries and is arranged in decreasing order. By indexing the Total EU-28 figure as 1, it shows how many times more or less applications a country received relative to the EU average.

The largest number of asylum applications in Europe in relation to its area size is Malta (2.294 per 1.000 sq km) which receives 25,8 times more applicants than the EU average (91 per 1.000 sq km). Hungary and Germany ranked second and third at some distance with 7,9 and 4,8 times more applications than the EU average. The Netherlands ranked 6th in the EU with 2,4 times the EU average.

	Norway	842	1,1	4,300	5,1
	Switzerland	1,371	1,7	11,160	8,1

Table 3 provides an overview of the number of first asylum applications in relation to population.

Hungary received the most applications in the EU in relation to its population size: 6.629 applications per million inhabitants, 8,4 times the EU average (788 applications per million inhabitants). Austria and Sweden ranked second and third at some distance (4,0 and 3,4 times the EU average). The Netherlands ranked 11th in the EU with 517 applications per million inhabitants. Italy (3rd place in absolute number of applications) received 0,6 times as much applications per million inhabitants as the EU average.

24	Portugal	2,1	0,1	430	203
25	Slovenia	1,9	0,1	85	44
26	Lithuania	1,9	0,1	105	56
27	Croatia	0,9	0,0	60	66
28	Slovak Republic	0,8	0,0	80	106
	Norway	17,2	0,6	4,300	250
	Switzerland	34,3	1,1	11,160	326

Table 4 shows the number of first asylum applications related to GDP size in PPS arranged in decreasing order. PPS stands for Purchasing Power Standard, this is a mathematical currency used to compare GDP sizes of different countries by eliminating the different price levels. Due to rounding in the calculation of the results for "TOTAL EU-28" the value can diverge somewhat from the expected (non-rounded) result.

Hungary, Austria and Bulgaria were the number one, two and three with respectively 12,6, 3,2 and 2,7 times the EU average. The Netherlands ranked 14th with half as much applications in relation to GDP compared to the EU average.

	Switzerland	2,0	3,0	1,7	1,1

Table 5 shows an overview of asylum influx by averaging (equally weighted) the three indexes from table 2-4.

Malta received the 10,1 times the EU average number of asylum applications in relation to its country size – area, population and GDP. Hungary followed with 9,6 times the EU average. The Netherlands ranked 10th, receiving 1,2 times more applications than the EU average.
